SUMMARY

Senior Project Manager (PMP, SAFe) experience delivering complex projects in process automation, data analytics, API suite development, and risk management. Expert in project governance, risk and dependency mapping, budget forecasting, and executive stakeholder management within Agile and Waterfall environments. Proficient in using JIRA and Confluence for project tracking and management. Eager to contribute to TELUS Digital's AI initiatives by leveraging extensive project management experience and technical expertise.

EXPERIENCE

*TD Bank Group, **Senior Scrum Master***

Feb 2022 - Present

- Facilitated Scrum/SAFe ceremonies, ensuring program governance and delivery consistency, enhancing throughput by 25% through improved sprint cadence and cross-functional collaboration.
- Partnered with Product Owners and external partners to develop program roadmaps, release schedules, and dependency tracking, enabling on-time releases.
- Oversaw cross-functional coordination between development, QA, deployment, and support teams, improving release management efficiency and reducing defects.

*Canadian Imperial Bank of Commerce, **Project Manager / Scrum Master***

May 2018 - Feb 2022

- Directed three Agile PODs delivering credit-card and banking modernization projects under strict regulatory oversight, achieving 100% adherence to delivery timelines.
- Coached teams on Scrum and Kanban methodologies, increasing predictability and reducing sprint rollover by 30%.
- Managed Agile delivery lifecycle across PODs using JIRA, MS Project, and Confluence to track financials, dependencies, and key milestones.

*CIBC, **Advisory Application Developer***

Aug 2015 - May 2018

- Collaborated with cross-bank teams on ECCO program to enable secure, large-scale data transfers, ensuring compliance with program governance and delivery quality standards.
- Improved compliance and delivery quality standards, reducing data transfer errors by 15% through meticulous coordination and oversight.
- Utilized JIRA for project tracking and management, enhancing project visibility and stakeholder communication.

*International Financial Data (IFDS), **Senior Business Analyst / Project Manager***

Apr 2015 - Aug 2015

Produced reusable program knowledge assets and reporting dashboards, improving executive-level program performance reporting and decision-making.

*Mashreq Bank, **Senior Manager Business Analyst / Project Manager***

Aug 2004 - Sep 2013

- Directed multiple retail banking transformation projects, improving customer acquisition by 25% through strategic initiatives and process enhancements.
- Embedded Lean Six Sigma methodologies across various initiatives, reducing operational waste by 15% and enhancing overall efficiency.
- Acted as a Six Sigma Blue Belt, driving key projects in regulatory compliance and risk management, ensuring adherence to industry standards.
