PROFESSIONAL EXPERIENCE

Senior Scrum Master / Account Delivery Lead | TD Insurance – Toronto, ON

02/2022 – Present

- Cultivated deep executive relationships across business and technology stakeholders, serving as a trusted advisor to senior leadership ensuring delivery alignment with strategic account goals.
- Standardized Agile governance for cross-functional teams, increasing sprint velocity by 5 points and reducing backlog overhead by 40%, enabling more reliable delivery for key client programs.
- Championed data-driven retrospectives and continuous improvement practices, resulting in a 20% reduction in escaped defects and measurably improved client satisfaction.
- Designed automated Confluence dashboards and Jira plan views, improving portfolio visibility by 30% for executive forums and enabling faster, evidence-based decision-making.
- Facilitated collaboration across technology and business teams to enhance throughput by 25%, accelerating value delivery to end customers.

Project Manager / Scrum Master | CIBC – Toronto, ON

05/2018 – 02/2022

- Built and managed relationships with internal stakeholders across multiple business lines (PODs), aligning account capacity with long-term program roadmaps and achieving a 30% improvement in resource utilization.

- Designed executive dashboards that improved strategic visibility by 25%, enabling leadership to make faster, data-driven investment and delivery decisions.
- Orchestrated complex dependency management across multiple product teams using Jira and MS Project, maintaining a 100% on-time delivery rate across all managed accounts.
- Managed program budgets and financial forecasting, significantly reducing forecast variance through rigorous capacity planning and alignment with client business objectives.
- Negotiated and aligned on scope, timelines, and resources with senior stakeholders, ensuring contract adherence and program success across multiple concurrent engagements.

Advisory Application Developer | CIBC – Toronto, ON

08/2015 – 05/2018

- Collaborated on the ECCO program to ensure secure, large-scale data transfers while maintaining strict adherence to regulatory and governance standards within the financial services environment.
- Partnered with cross-functional teams to translate complex technical requirements into executable solutions, supporting client commitments on compliance and data integrity.

Senior Business Analyst / Project Manager | IFDS – Toronto, ON

04/2015 – 08/2015

- Produced reusable knowledge assets and performance dashboards to streamline executive-level decision-making and support client relationship management.
- Developed account-level reporting frameworks to provide clients with actionable insights into operational performance.

Project Manager – Retail Banking Transformation | Mashreq Bank

08/2004 – 09/2013

- Directed retail banking transformation projects that improved customer acquisition by 25%, partnering with senior stakeholders to design and execute growth strategies across diverse business units.
- Built strong relationships with business and technology leaders across the organization to deliver Lean Six Sigma initiatives, reducing operational waste by 15%.
- Led contract negotiations and vendor management for multi-year transformation programs, ensuring alignment with organizational financial and strategic objectives.
